RELEVANT EXPERIENCE

PhoneCraft Cellphone Repair | Caloocan City, Metro Manila, Philippines

August 2024 - Present

Head Cellphone Technician

- Performed precision diagnostics, including BGA rework, IC reballing, and micro-soldering on mobile devices.
- Managed repair operations, inventory systems, and technical support workflows for a high-volume facility.
- Maintained strict quality standards, achieving a 95% customer satisfaction rate across 1000+ repairs.

Wilshire Financial Network | Beverly Hills, CA, United States of America (USA)

June 2025 - September 2025

Automation Engineer Trainee

- Deployed AI chatbots (n8n, Twilio, ElevenLabs, ChatGPT, Gemini) to automate customer support, reception, and lead generation workflows.
- Automated social media workflows, reducing manual overhead by 40%.
- Directed a 6-member team developing custom enterprise automation tools, including transcription and custom CRM systems.

Aeternitas Chapels & Columbarium | Quezon City, Metro Manila, Philippines

August 2025 - September 2025

Software Engineering Intern

- Developed an enterprise Human Resources Information System (HRIS) using a React/TypeScript, Electron, Express, and PostgreSQL stack.
- Architected an employee management platform for payroll, time tracking, and analytics, supporting 500+ users.
- Established a CI/CD pipeline, achieving 99.9% uptime and reducing deployment time by 80%.

TECHNICAL PROJECTS

M.A.S.H. | Thesis Project www.mashmarket.app/

Aug 2025 - Apr 2026

- Developed a smart agriculture platform (Flutter, NestJS, Next.js, PostgreSQL) to automate cultivation workflows, potentially increasing yield by 15% for small-scale growers.
- Architected a four-layer system (mobile app, web apps, backend, and IoT edge control) for real-time monitoring and chamber automation.
- Managed thesis delivery using sprint planning and milestone governance to ensure production-ready system outputs.

Ucc-Ingo | School Project <https://uccingo.tech/>

June 2025 - Apr 2026

- Managed a Next.js platform integrated with a headless CMS, serving 1000+ students.
- Directed a 9-member full-stack team for the successful launch of an academic project showcase gallery feature.
- Maintained 99.8% system uptime and optimized course access, reducing page load times by 30%.

EDUCATION, LEADERSHIP & AFFILIATIONS

University of Caloocan City

Caloocan City, Metro Manila

Bachelor of Science in Computer Science — Graduated Cum Laude

August 2022 - April 2026

- Competed in DICT Hack4Gov Regional (2025)

November 2025

Lead Speaker — n8n AI Automation: Building Intelligent Workflows for Modern Applications

March 2026

- Led a technical webinar on n8n AI Automation, teaching developers how to eliminate manual bottlenecks, integrate APIs, and build intelligent, scalable workflows for modern applications.

Head of Technical Committee

June 2025 - April 2026

BS Computer Science Council

- Built a digital platform enabling thesis project showcases, fostering student collaboration and academic visibility.

Lead Speaker — Git Going Workshop

September 2024

- Served as main speaker for a GitHub workshop covering end-to-end Git workflows — version control fundamentals, branching strategies, collaboration best practices, and portfolio website creation.

Program Committee

June 2025 - April 2026

- Organized technical workshops exploring GitHub and Visual Studio Code workflows, impacting over 1,000+ students.

SKILLS & CERTIFICATIONS

Certifications: TESDA NC III Certified (Java)

Skills:

- **Languages:** JavaScript, TypeScript, Java
- **Frameworks & Libraries:** React, Next.js, Vite, Flutter, Node.js, Express.js, Spring Boot, Electron, NestJS
- **Databases & Tools:** PostgreSQL, SQLite, Firebase, Git, n8n, Twilio, ElevenLabs, ChatGPT, Gemini
- **IoT:** Arduino, Raspberry Pi, MQTT
